KINGS PLACE SCULPTURE TRAIL

About

Pangolin London is one of London's few galleries dedicated to exhibiting sculpture. Pangolin London's Sculpture Trail includes large scale works by a host of artists, both within the building and canalside at Kings Place, and its fast developing reputation as one of the UK's most dynamic Sculpture Trails.

Exhibitions

Merete Rasmussen: Haven (In the Gallery)

11 November - 23 December 2026

Whilst nature has always been an inspiration for Rasmussen, it is a particular focus in *Haven*, whose title carries a dual meaning in both Danish as 'the garden' and English. Since building her studio in East Sussex to overlook the verdant garden she has cultivated over the past eight years, Rasmussen has increasingly recognised and embraced the influence of natural forms, such as seed pods and flower structures. Alongside more than twenty new sculptural ceramics, the exhibition presents a selection of new works cast in bronze and silver, including silver jewellery. Together, these works reveal a growing confidence in scale, complexity and ambition, reaffirming Rasmussen's position as one of the most innovative contemporary ceramic artists working today.

Installation view of *Merete Rasmussen: Haven*, 2026.

Exhibitions

Sculptor's Drawings and Prints (B-1)

13 February - 23 December 2026

Sculptors' Drawings and Prints brings together a diverse group of modern British and contemporary sculptors to explore the vital role of works on paper within sculptural practice. From intimate sketches and exploratory studies to finished prints and experimental compositions, the exhibition reveals how sculptors use drawing as a space for thinking, testing, and reimagining form.

Together, these works offer a compelling insight into the evolving language of sculptural draftsmanship and the distinctive ways in which each artist articulates form, space, and structure on paper.

Carl Plackman
The Immigrant
1985 - 86, Charcoal, Conté stick on paper
Unique
